

AMENDMENTS TO THE CLAIMS:

1. (Currently Amended) A heating device, such as a radiator or heated towel rail, particularly for installation in a bathroom such as a hotel bathroom, incorporating a screen of a TV or similar visual display device with either built in, or separate speakers, and also incorporating a mirror device utilizing the "mirror vision" principle of a two-way mirror covering the said screen, looking wherein said screen looks like a conventional mirror when the media type said visual display device is switched off, but being is viewable through said mirror device when the media type said visual display device is switched on.

2. (Currently Amended) A heating radiator or towel-rail device as claimed in Claim 1, wherein the radiator/towel-rail said heating device is heatable electrically.

3. (Currently Amended) A heating radiator or towel-rail device as claimed in Claim 1 or Claim 2, wherein the radiator/towel-rail said heating device is adapted to be connected to a (water filled) central heating system and hence is of any industry-standard radiator/towel-rail length to enable use to be made of existing piping/connections with minimal plumbing work of heating device.

4. (Currently Amended) A heating radiator or towel-rail device as claimed in Claim 1, wherein the TV or similar said visual display device is inset into the radiator/towel-rail said heating device, such that the TV said visual display is flush, or substantially so, with a surface of

the radiator/towel rail said heating device.

5. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 1, wherein ~~the TV or similar~~ said visual display device is surface mounted onto, or into, the radiator/towel rail said heating device.

6. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 1, wherein ~~the TV or similar~~ said visual display device, is attached to a back box.

7. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 6, wherein speakers and power supply means are also attached to the back box.

8. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 6, wherein a cable entry/exit hole is provided in the back box.

9. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 6, wherein the back box is of stainless steel or other non-rusting material.

10. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 6, wherein an open front of the back box is closed off by a glass screen.

11. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 6, wherein the engagement of the glass screen and the back box is in a water and vapour sealing manner.

12. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 10 Claim 11, wherein a mirror vision film is located over an inner surface of the glass screen.

13. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 12, wherein a black p. v. c. layer, with an aperture appropriate to the size of the screen of the TV or similar said visual display device, is located at the inner surface of the mirror vision film.

14. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 6, wherein the back box is fixed to a frame portion of the radiator/towel rail.

15. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 1, wherein the TV or similar said visual display device is remotely controlled.

16. (Currently Amended) A heating radiator or towel rail device as claimed in Claim 1, wherein the TV or similar said visual display device is provided with manual buttons/knobs.

17. (Currently Amended) A heating radiator or towel-rail device as claimed in Claim 16, wherein the buttons/knobs are remotely mounted.

18. (Currently Amended) A heating radiator or towel-rail device as claimed in Claim 1, wherein the TV or similar said visual display device is controlled by an external source e. g. computer.

19. (Currently Amended) A heating radiator or towel-rail device as claimed in Claim 1, wherein the TV or similar said visual display device is controlled by some form of a touch sensor.

20. (Currently Amended) A heating radiator or towel-rail device as claimed in Claim 1, wherein the radiator/towel-rail unit said heating device is IP (ingress protector) rated to enable it to be moisture resistant or even waterproof.

21-23. (Cancelled)
